

OPTIMAL
PROTECTION FOR
YOUR CARAVAN,
CAMPER, RV OR
MOTORHOME

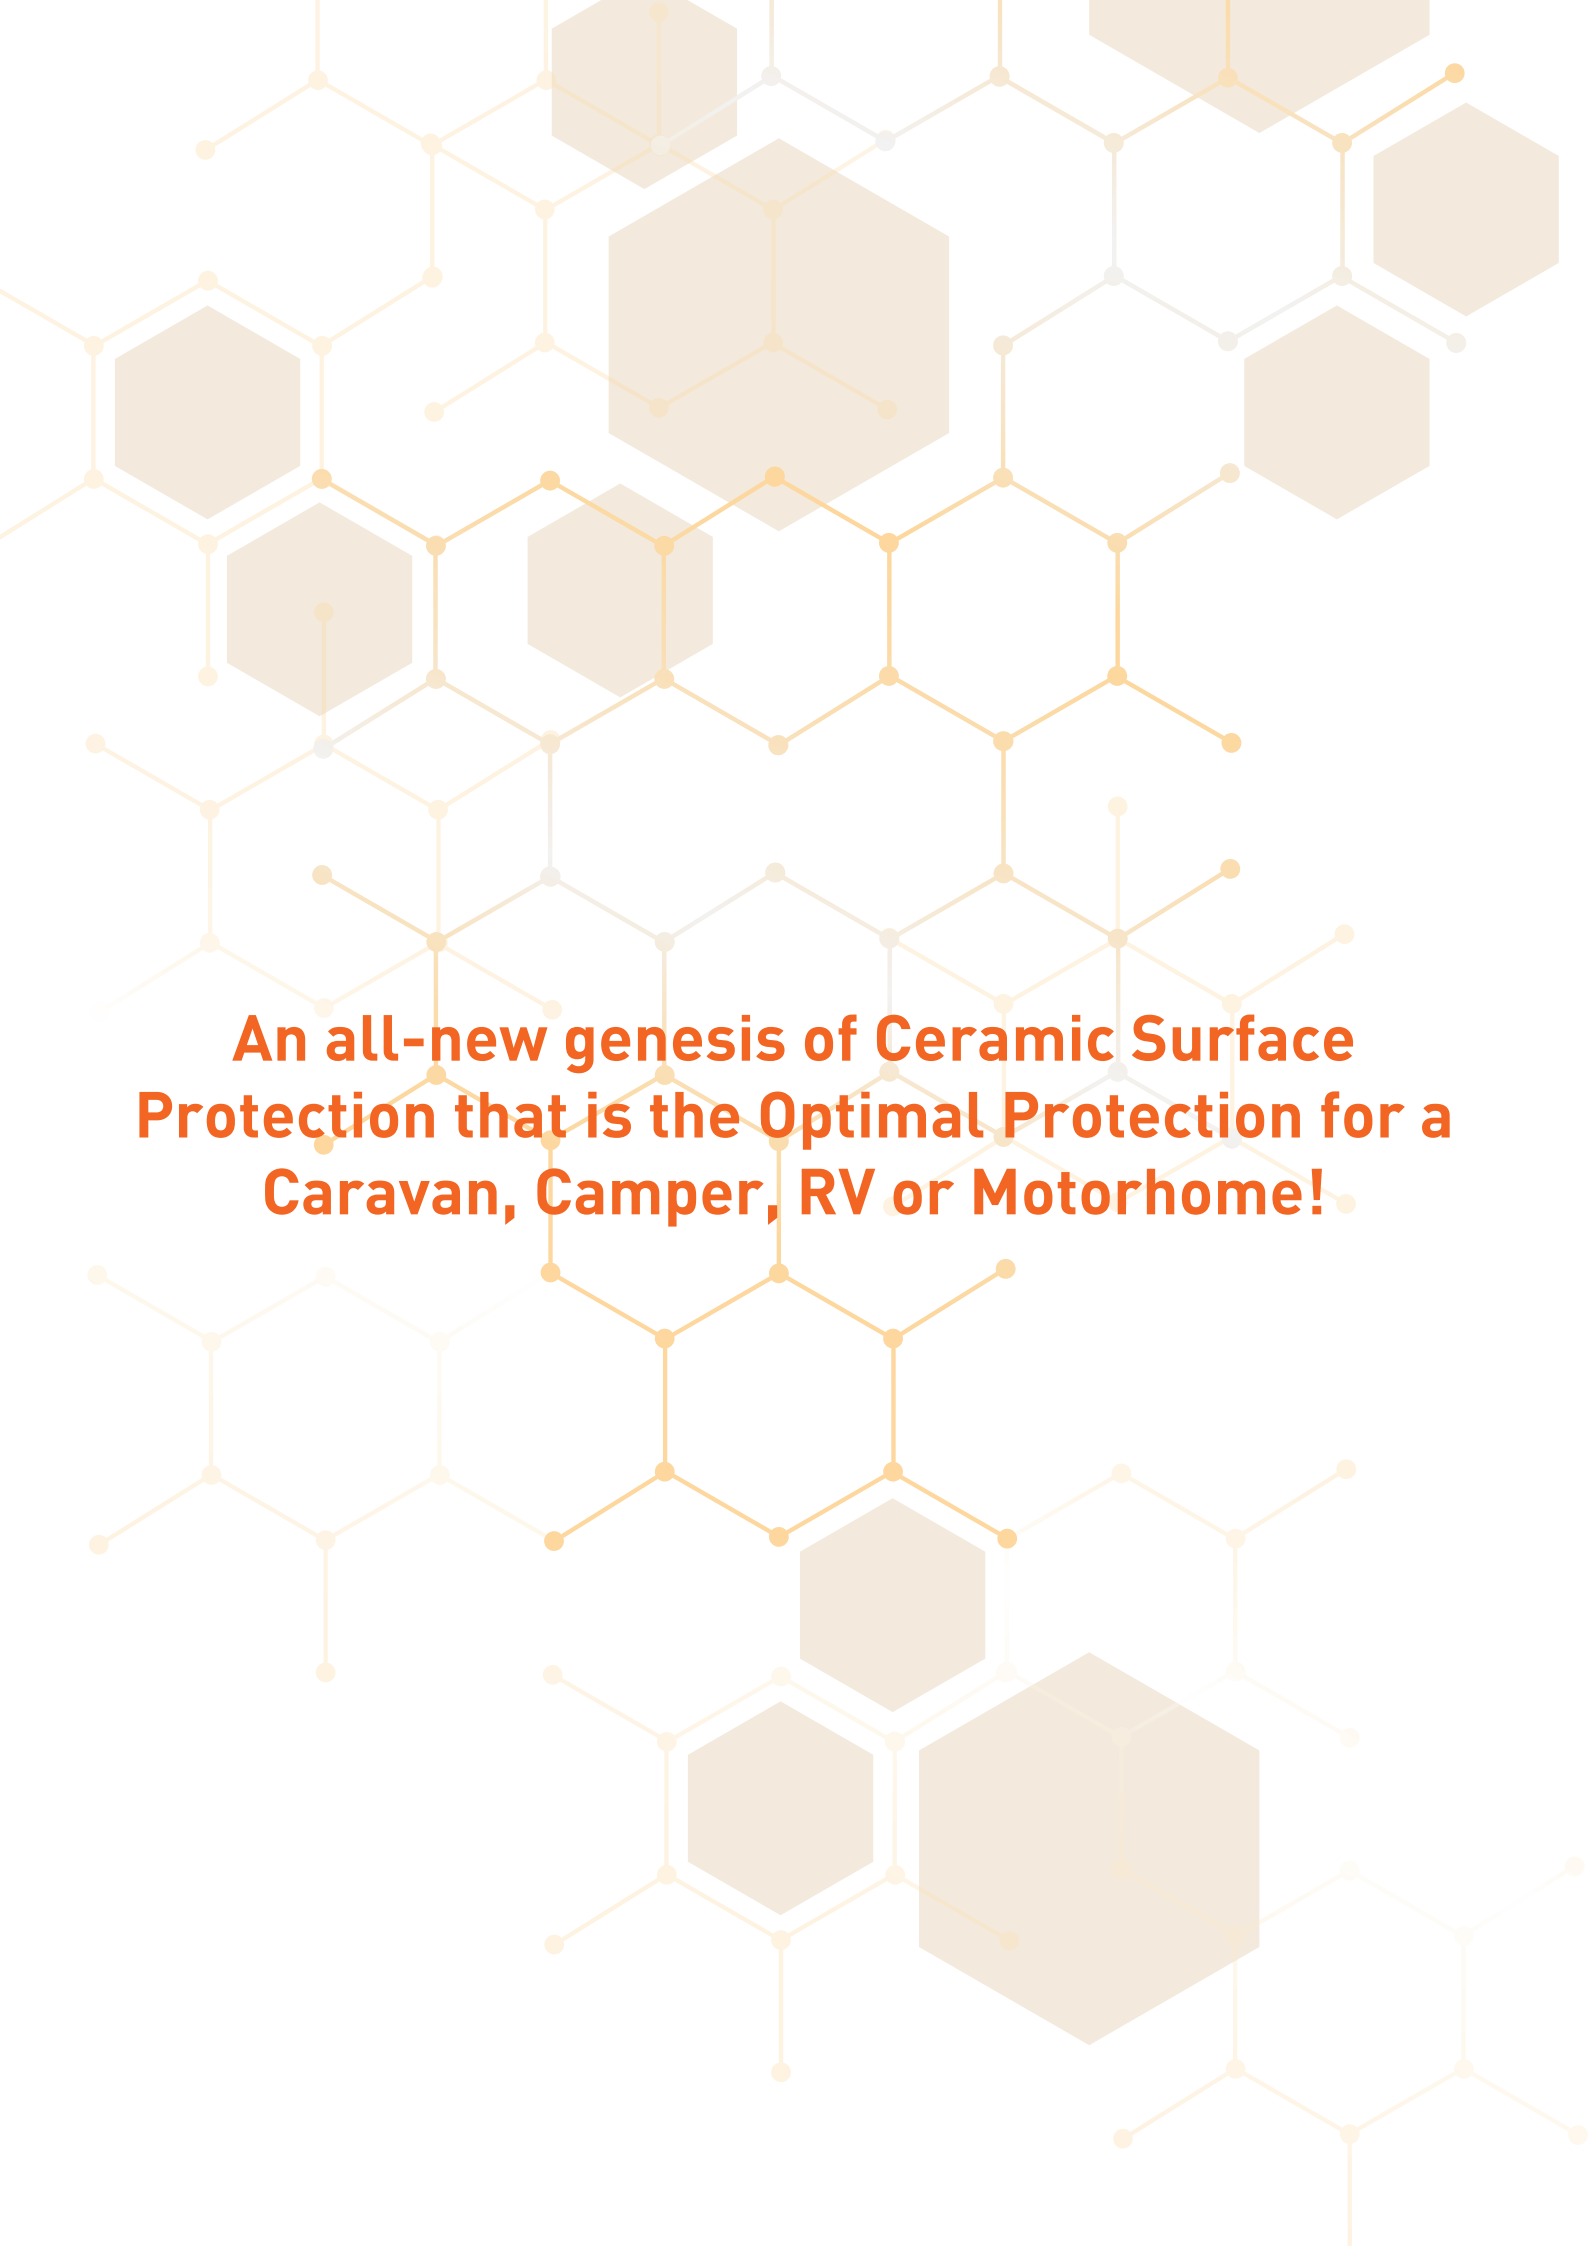

OptiVAN

OPTIMAL PROTECTION

An all-new genesis of Ceramic Surface Protection that is the Optimal Protection for a Caravan, Camper, RV or Motorhome!

PROTECTION
BRANDS

Protection Brands is Australia's leading OEM and Dealer aftercare supplier offering best in class protection products for the automotive and caravanning industry.

Working with some of the largest Dealer Groups in Australia as well as some of the most recognized vehicle OEMs such as Mercedes-Benz Asia Pacific, Mitsubishi Motors Australia, Honda Australia and Mazda Australia, Protection Brands is uniquely positioned to service all of your aftercare product needs.

Protection Brands now has an adventure or leisure vehicle specific Ceramic Treatment range that is purpose built for the Caravanning industry.

THE OPPORTUNITY

Utilising best-in-class products that are exclusive to our business, Protection Brands is in the unique position to you with Australia's newest and best Ceramic Surface Protection for Caravans, Campers, RV's and Motorhomes, that is leisure or adventure vehicle specific!

- ✓ The OptiVAN Protection Range
- ✓ OptiVAN Exterior (Ceramic) Paint Protection
- ✓ OptiVAN Interior (All-in-One) treatment
- ✓ Antimicrobial Treatment Pack (4)
- ✓ AT HOME cleaning product
- ✓ Australia's best Warranty for the Caravanning industry!
- ✓ Australia's best warranty support
- ✓ Australia's best warranty coverage (what we cover Vs what we don't)
- ✓ National Warranty Department
- ✓ National personnel including Assessment, Support, Rectification & Repairs
- ✓ National Coverage
- ✓ Goodwill mentality towards customer Warranty Claims
- ✓ The Optimal Caravan, Camper, RV and Motorhome specific protection product range for leisure and adventure vehicles!

The OptiVAN range is an extension on technology N.A.S.A. devised from the ceramic based paints used on space shuttles for their heat insulation and anti-corrosion properties.

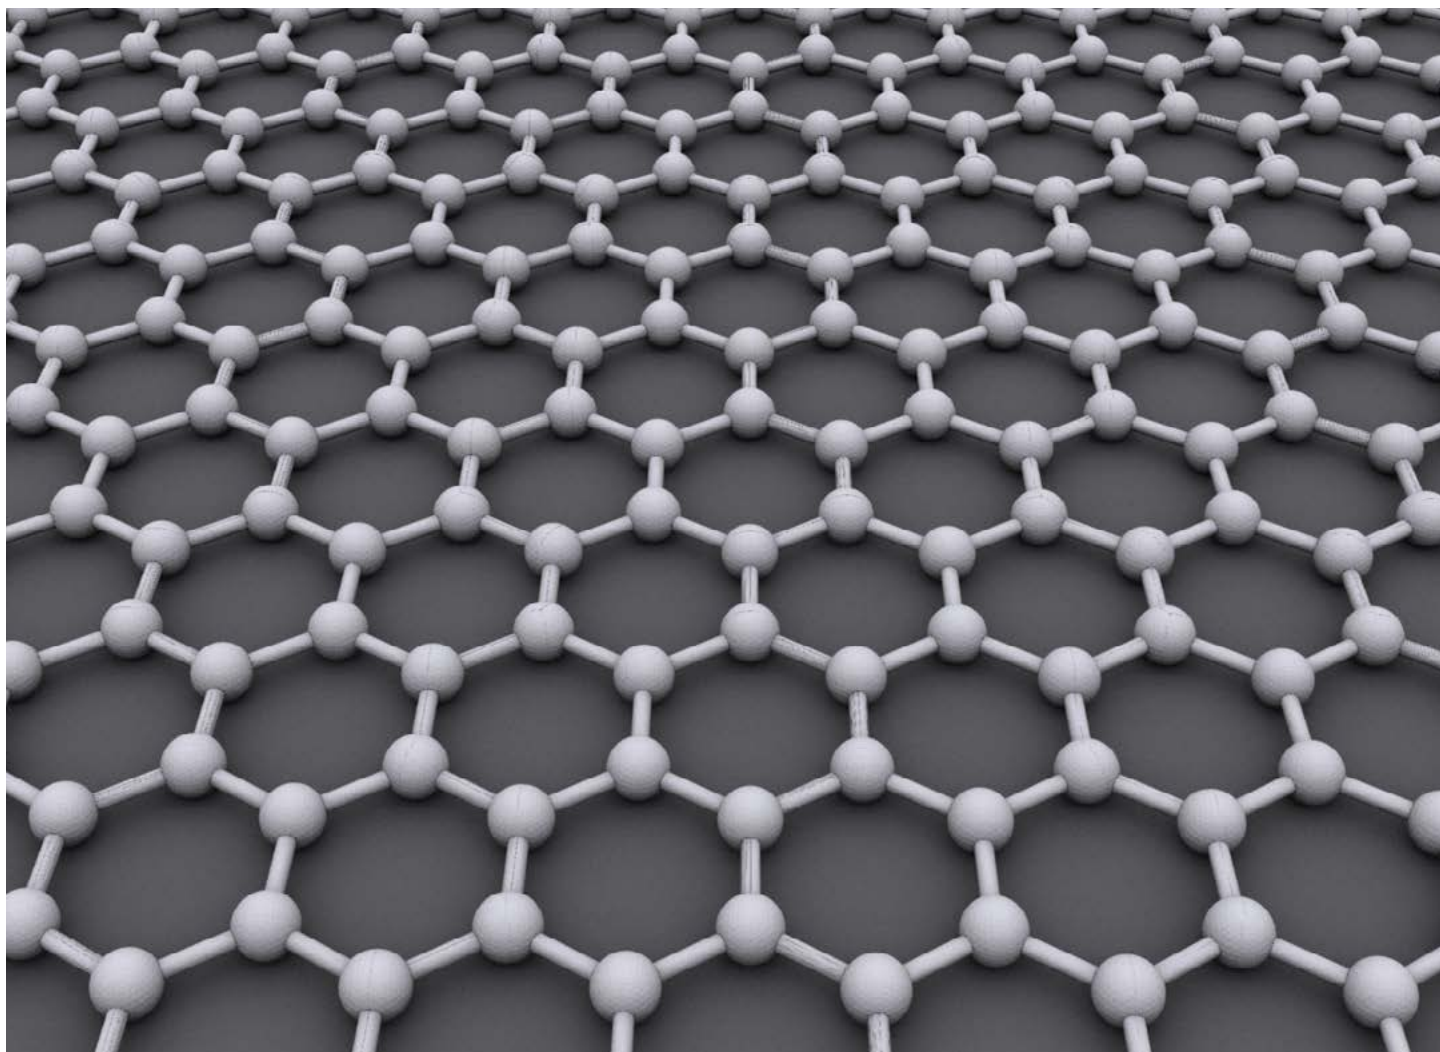

OptiVAN's Independent testing

HARDNESS & THICKNESS RATINGS

During the final stages of preparing the OptiVAN range, Protection Brands had the OptiVAN Exterior independently and lab tested. The results far exceeded our own expectations and we can now officially say that the OptiVAN Ceramic Exterior protection is the Hardest and Thickest Ceramic on today's market.

Test was completed on 28/7/2022 by KOTITI who is a global testing & research institute for R&D and innovative technology. Results of the test:

- OptiVAN Exterior achieved a result of "Above 9H" on the Mohs scale. (9H is as hard as they can test and most other ceramics can only say they "achieved" 9H. OptiVAN exceeded 9H).
- OptiVAN Exterior achieved a standard thickness level of 6 microns, making it one of; if not the thickest Ceramics on today's market. (Most other ceramics are between 2 and 4 microns thick).
- Combine these two results and we have achieved the strongest, thickest and most durable Ceramic Paint Protection on the market.

OPTIVAN EXTERIOR

Is Australia's first leisure vehicle specific treatment that is a two-step Ceramic Surface Exterior Protection Coating AND also utilises the proven protective capabilities of Graphene against a huge range of contaminants.

The OptiVAN Exterior protection, augmented with Graphene interlocks with your Caravan, Camper, RV or Motorhomes surface, creating an extra tough layer that delivers extreme durability and a long-lasting super gloss finish.

BUT, just creating an extra tough layer of durability wasn't enough for us. We needed to achieve what no other protection product has to date and with OptiVAN... We have!

OptiVAN INTERIOR

Works to keep the interior of the Caravan, Camper, RV or Motorhome fresh, easy to clean and mess resistant and is a new all-in-one Leather, Fabric, Plastic and Vinyl Protection. The technology included within OptiVAN Interior adheres to every fibre of textile material and provides a flexible barrier, preventing stains from food, drink and soiling from everyday use.

The treated surface is easier to clean while the micro-technology offers ongoing protection. Surfaces are more durable against harmful UV rays and high temperatures that cause the interior surfaces to dull and fade.

ANTIMICROBIAL SHIELD

Utilising the leading technology in hygiene protection, the Protection Brands Antimicrobial Shield not only kills 99.99% of all bacteria, mould and pathogens, it also actively repels and eliminates future infestations.

With an airborne application process, the Antimicrobial Shield reaches all exposed surfaces to permeate the parts of the Caravan, Camper, RV or Motorhome that you don't see. This makes our Antimicrobial Shield a viable and inexpensive alternative to traditional treatments.

- ✓ Tested to inactivate 99.9% of COVID-19 for up to 28 days
- ✓ Kills 99.99% of S.aureus, E.coli, P.aeruginosa, E.hirae, C.albicans and A.brasiliensis
- ✓ Non-toxic sanitiser
- ✓ Protects your interior for extended periods of time
- ✓ Reduces cabin odours such as pet odours, mould and mildew
- ✓ Invisible and odourless
- ✓ Tested, approved and as utilised by the Australian Navy Fleet.

What sets us apart even further in comparison to other brands, is our Warranty and after purchase support.

Protection Brands is focused on delivering the highest level of customer service and no where more important for this is in the event of a warranty enquiry or claim.

Protection Brands has a dedicated warranty team who follow set process to effectively process customer warranty enquiries and claims.

WARRANTY

The OptiVAN range includes Australia's best warranty coverage for Caravans, Campers, RV's and Motorhomes and when compared to three other major providers to the Caravanning industry, there are things we do NOT do and things we absolutely DO, such as:

Things we do NOT do (that others do):

- ✗ There are NO annual or ongoing inspections applicable
- ✗ There are NO annual or requirements for reapplications
- ✗ There are NO additional costs or hidden fees that apply
- ✗ Vehicles do NOT need to be registered at all times for the warranty to remain valid
- ✗ We do NOT have a limit of \$ liability (whatever it costs to repair a customers vehicle, we pay it or fix it)
- ✗ There is NO limit to how many claims a customer can make
- ✗ There is NO requirement for the customer to attend the same location they had the products fitted for warranty repairs

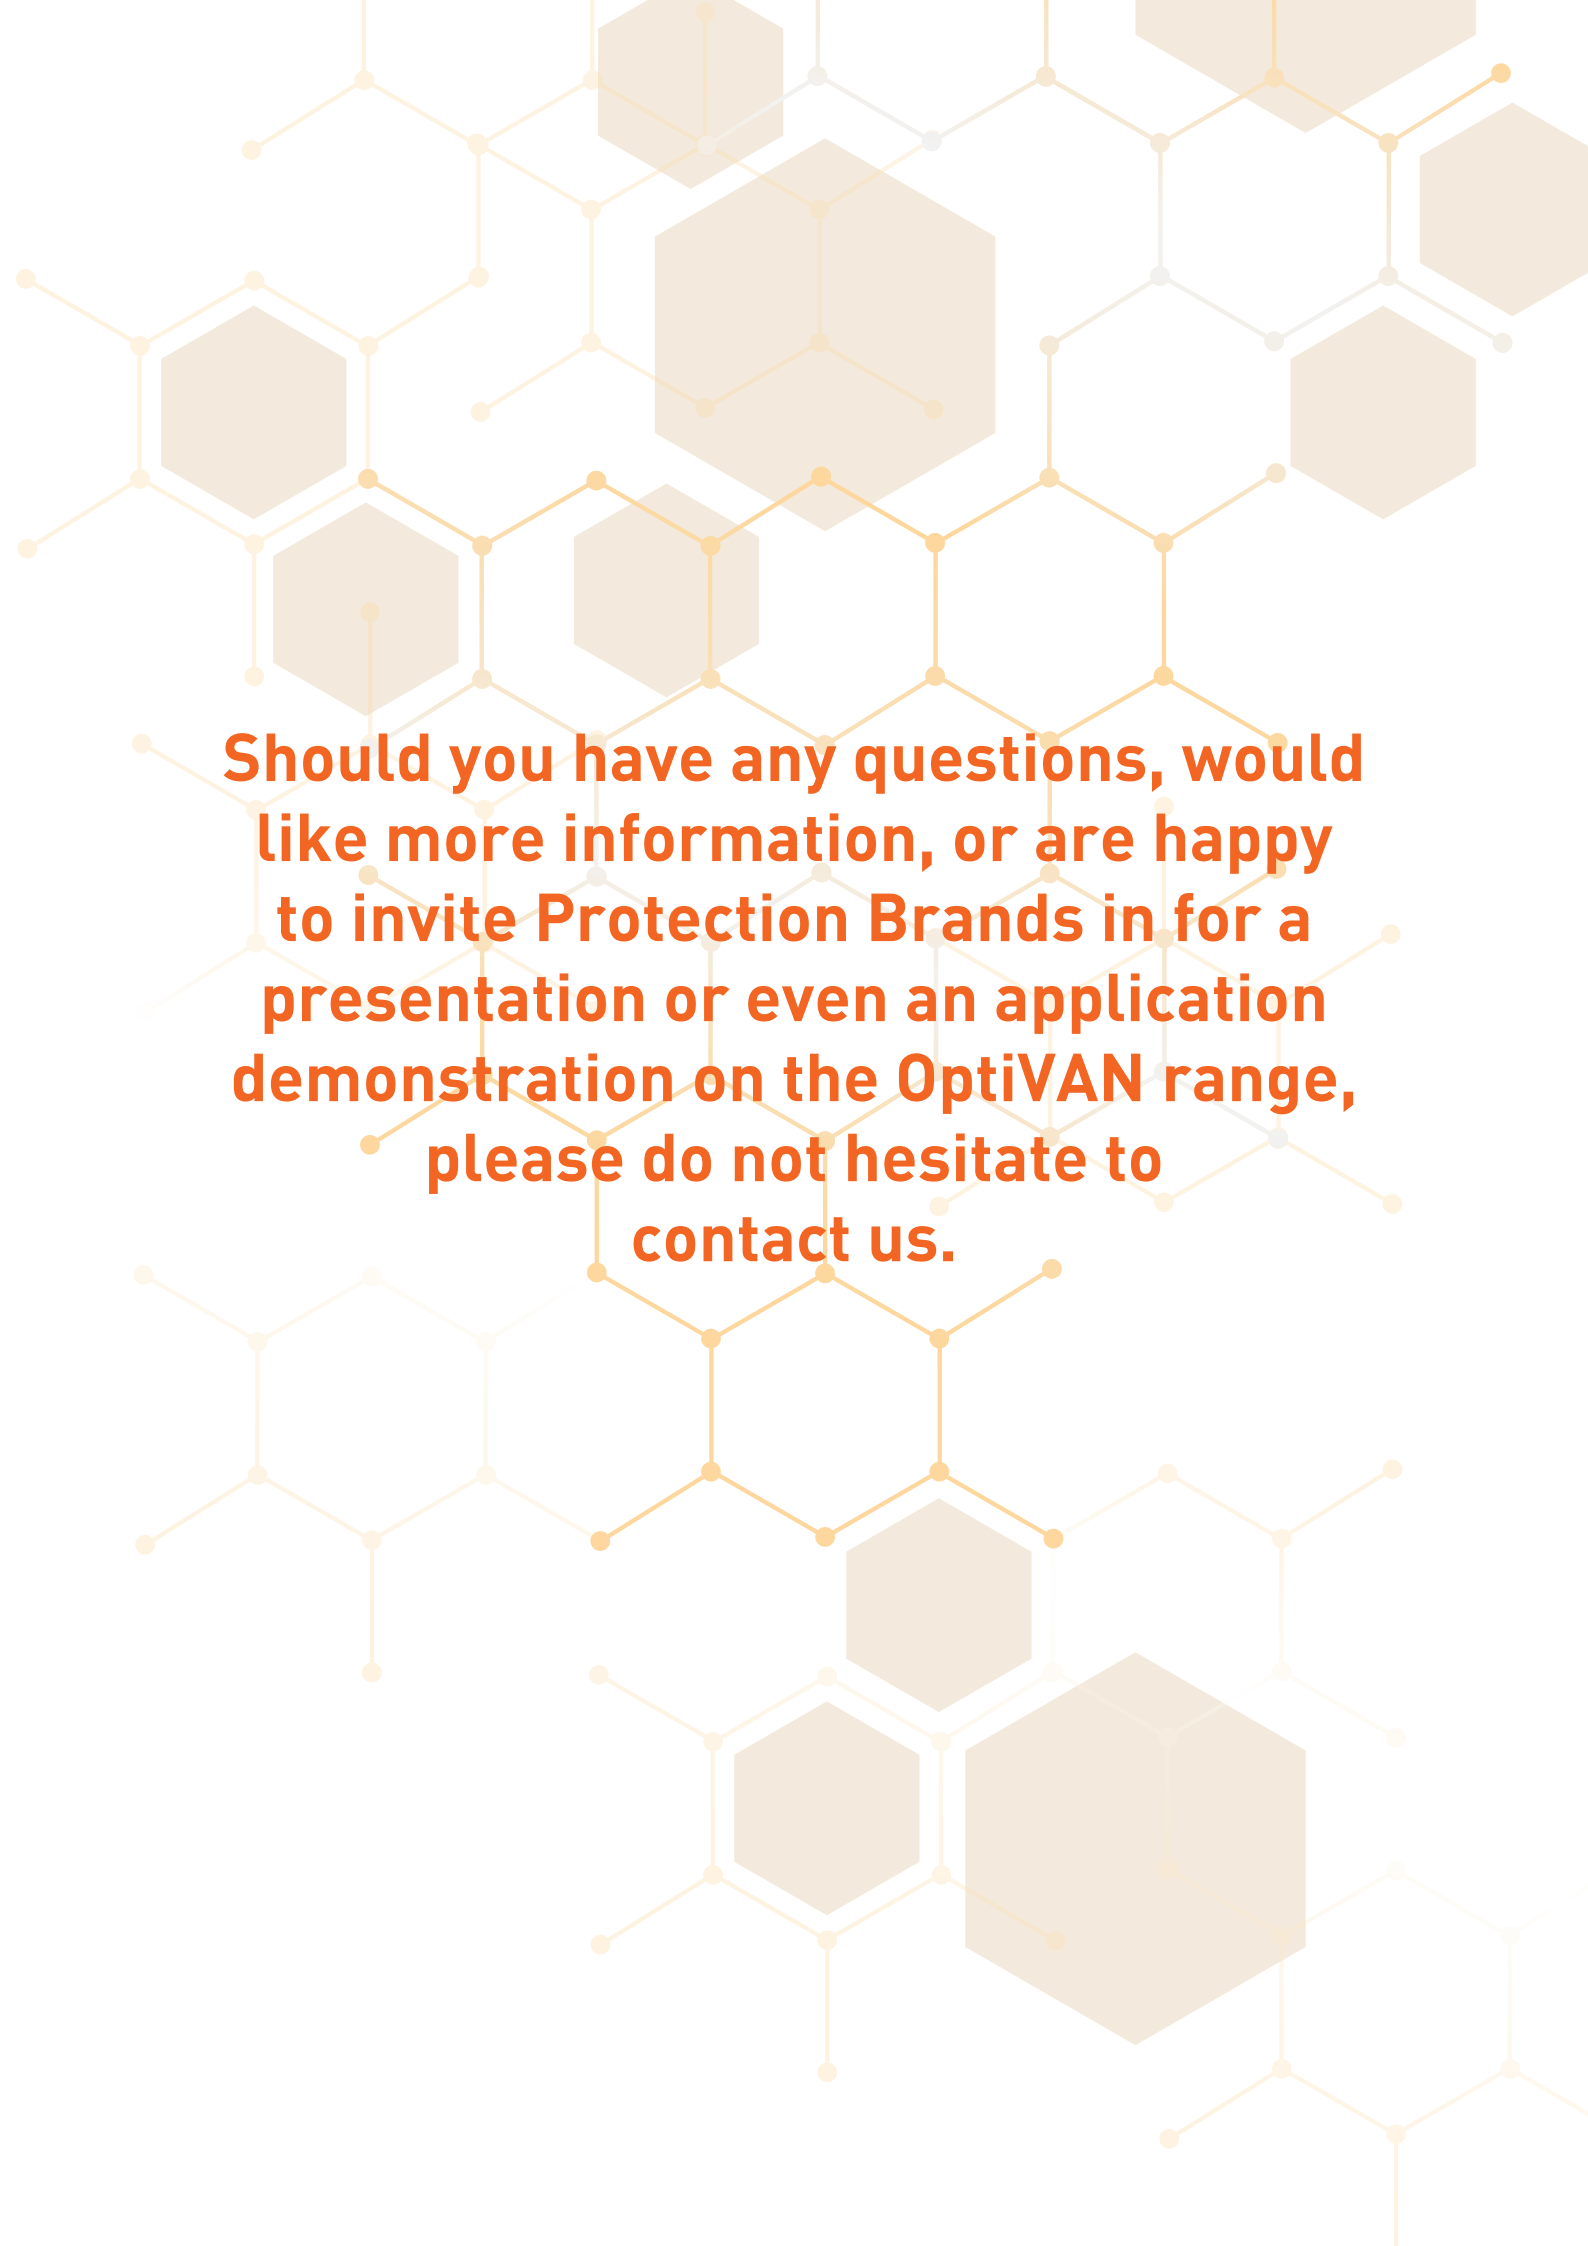

Things we do warrant against (that others do NOT do):

- ✓ loss of gloss
- ✓ bug splatter damage
- ✓ tree sap damage
- ✓ water marks & spotting
- ✓ water etching damage
- ✓ mineral buildup
- ✓ bird dropping damage
- ✓ bat dropping damage
- ✓ berry staining
- ✓ leaf staining
- ✓ oxidisation
- ✓ discolouration
- ✓ fading
- ✓ road grime
- ✓ Environmental fallout damage
- ✓ Sunscreen damage
- ✓ Staining of interior materials
- ✓ Coffee / Milk / Soda stains
- ✓ Lipstick or Make-up stains
- ✓ Ultraviolet light (UV) damage
- ✓ Hydrophobic properties of the protection

No other protection product for the Caravanning industry warrants against as many contaminants as OptiVAN range, nor looks after the customer as well as the OptiVAN range. Period!

OptiVAN

Should you have any questions, would like more information, or are happy to invite Protection Brands in for a presentation or even an application demonstration on the OptiVAN range, please do not hesitate to contact us.
