From a company that has been operating in Australia for more than 65 years with more than 5,000,000 (5 million) vehicles treated with our products during this time, optimal protection doesn't just come with the products. You are supported by:

- ✓ Unparalleled product performance that is the strongest, thickest and most durable protection available, designed specifically for the Australian climate and caravanning industry
- ✓ Independently tested to be rated ABOVE 9H on the Mohs scale
- ✓ Independently tested to add an additional coating layer of around 9 microns to your Caravan, Camper, RV or Motorhome
- ✓ Australia's Best National Lifetime Transferrable Warranty that warrants more contaminants
- ✓ Product treatment and protection to more surfaces
